

PACCHIOSI JET-GROUTING SYSTEMS

Injection System PS1

single injection at programmed speed and time.

Injection System PS2w

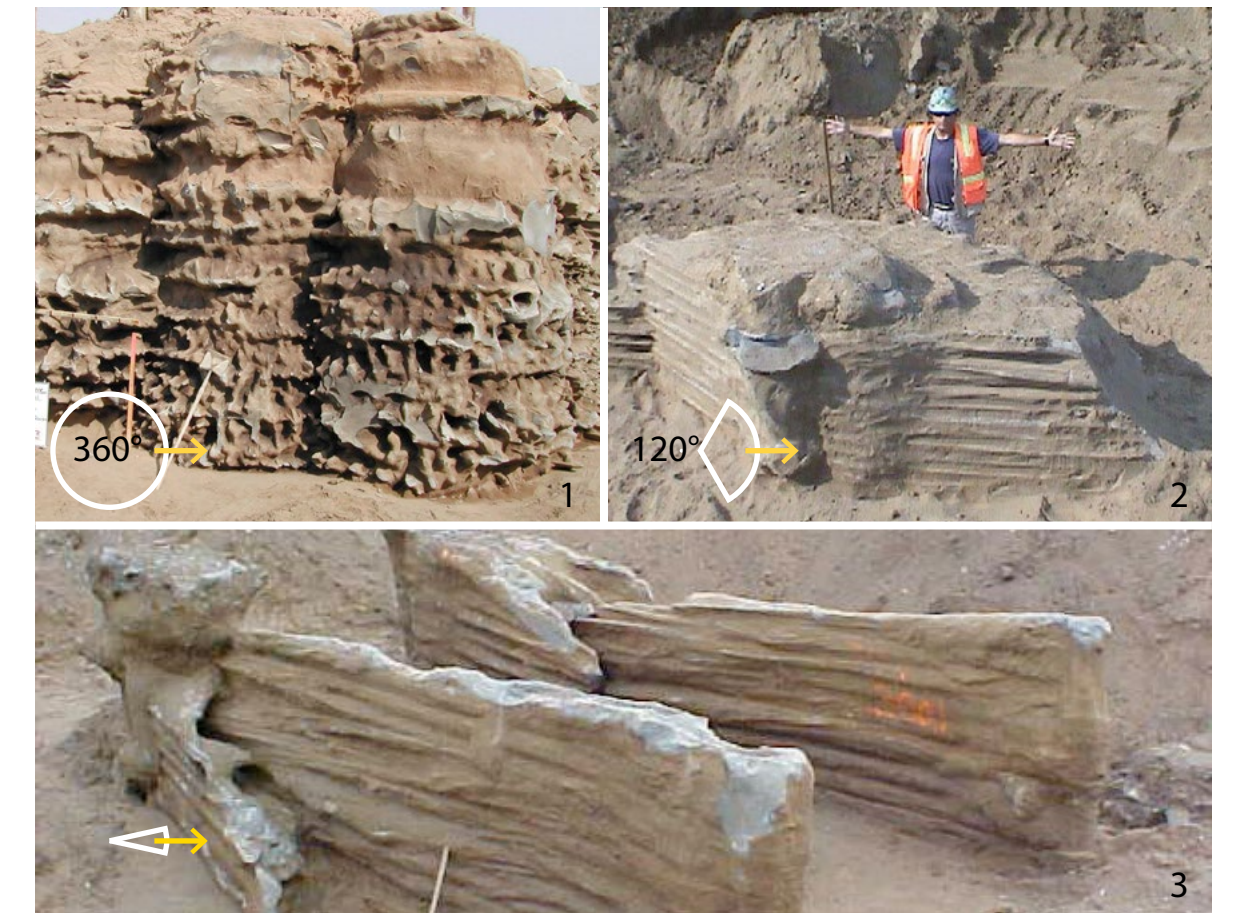

water and grout duoble injection at programmed speed and time.

Injection System PS2a

air and grout duoble injection at programmed speed and time.

Injection System PS3

water, air and grout triple injection at programmed speed and time.

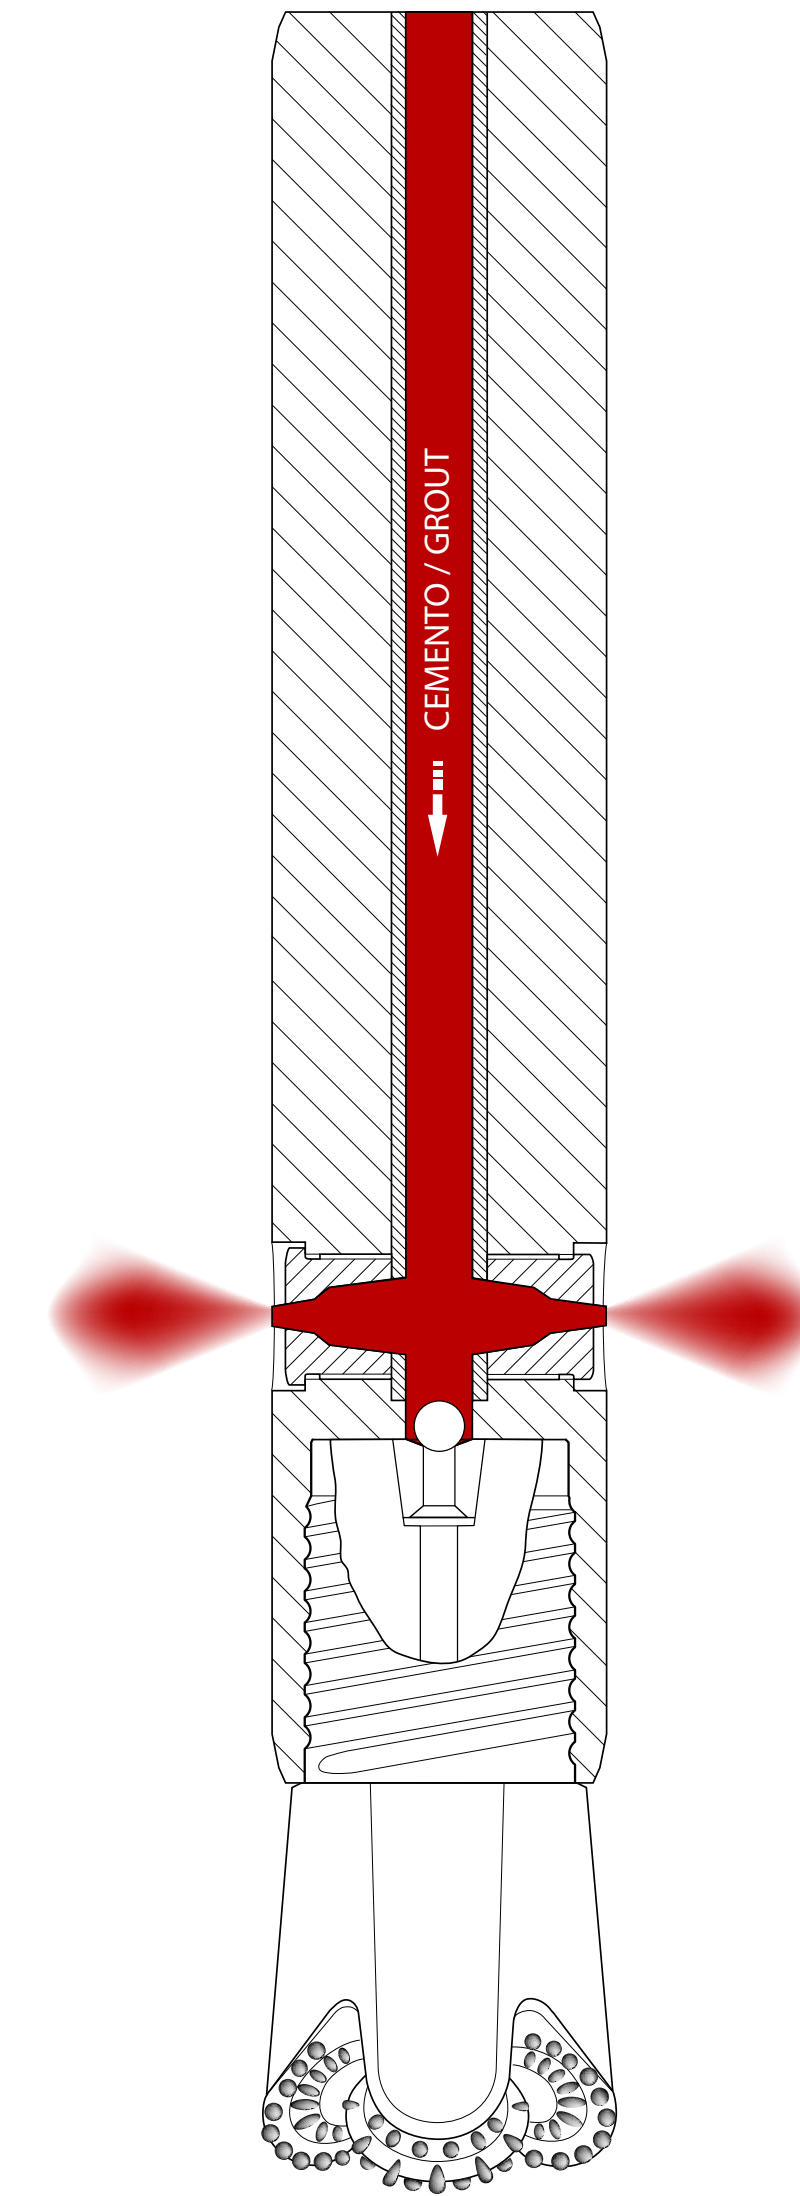

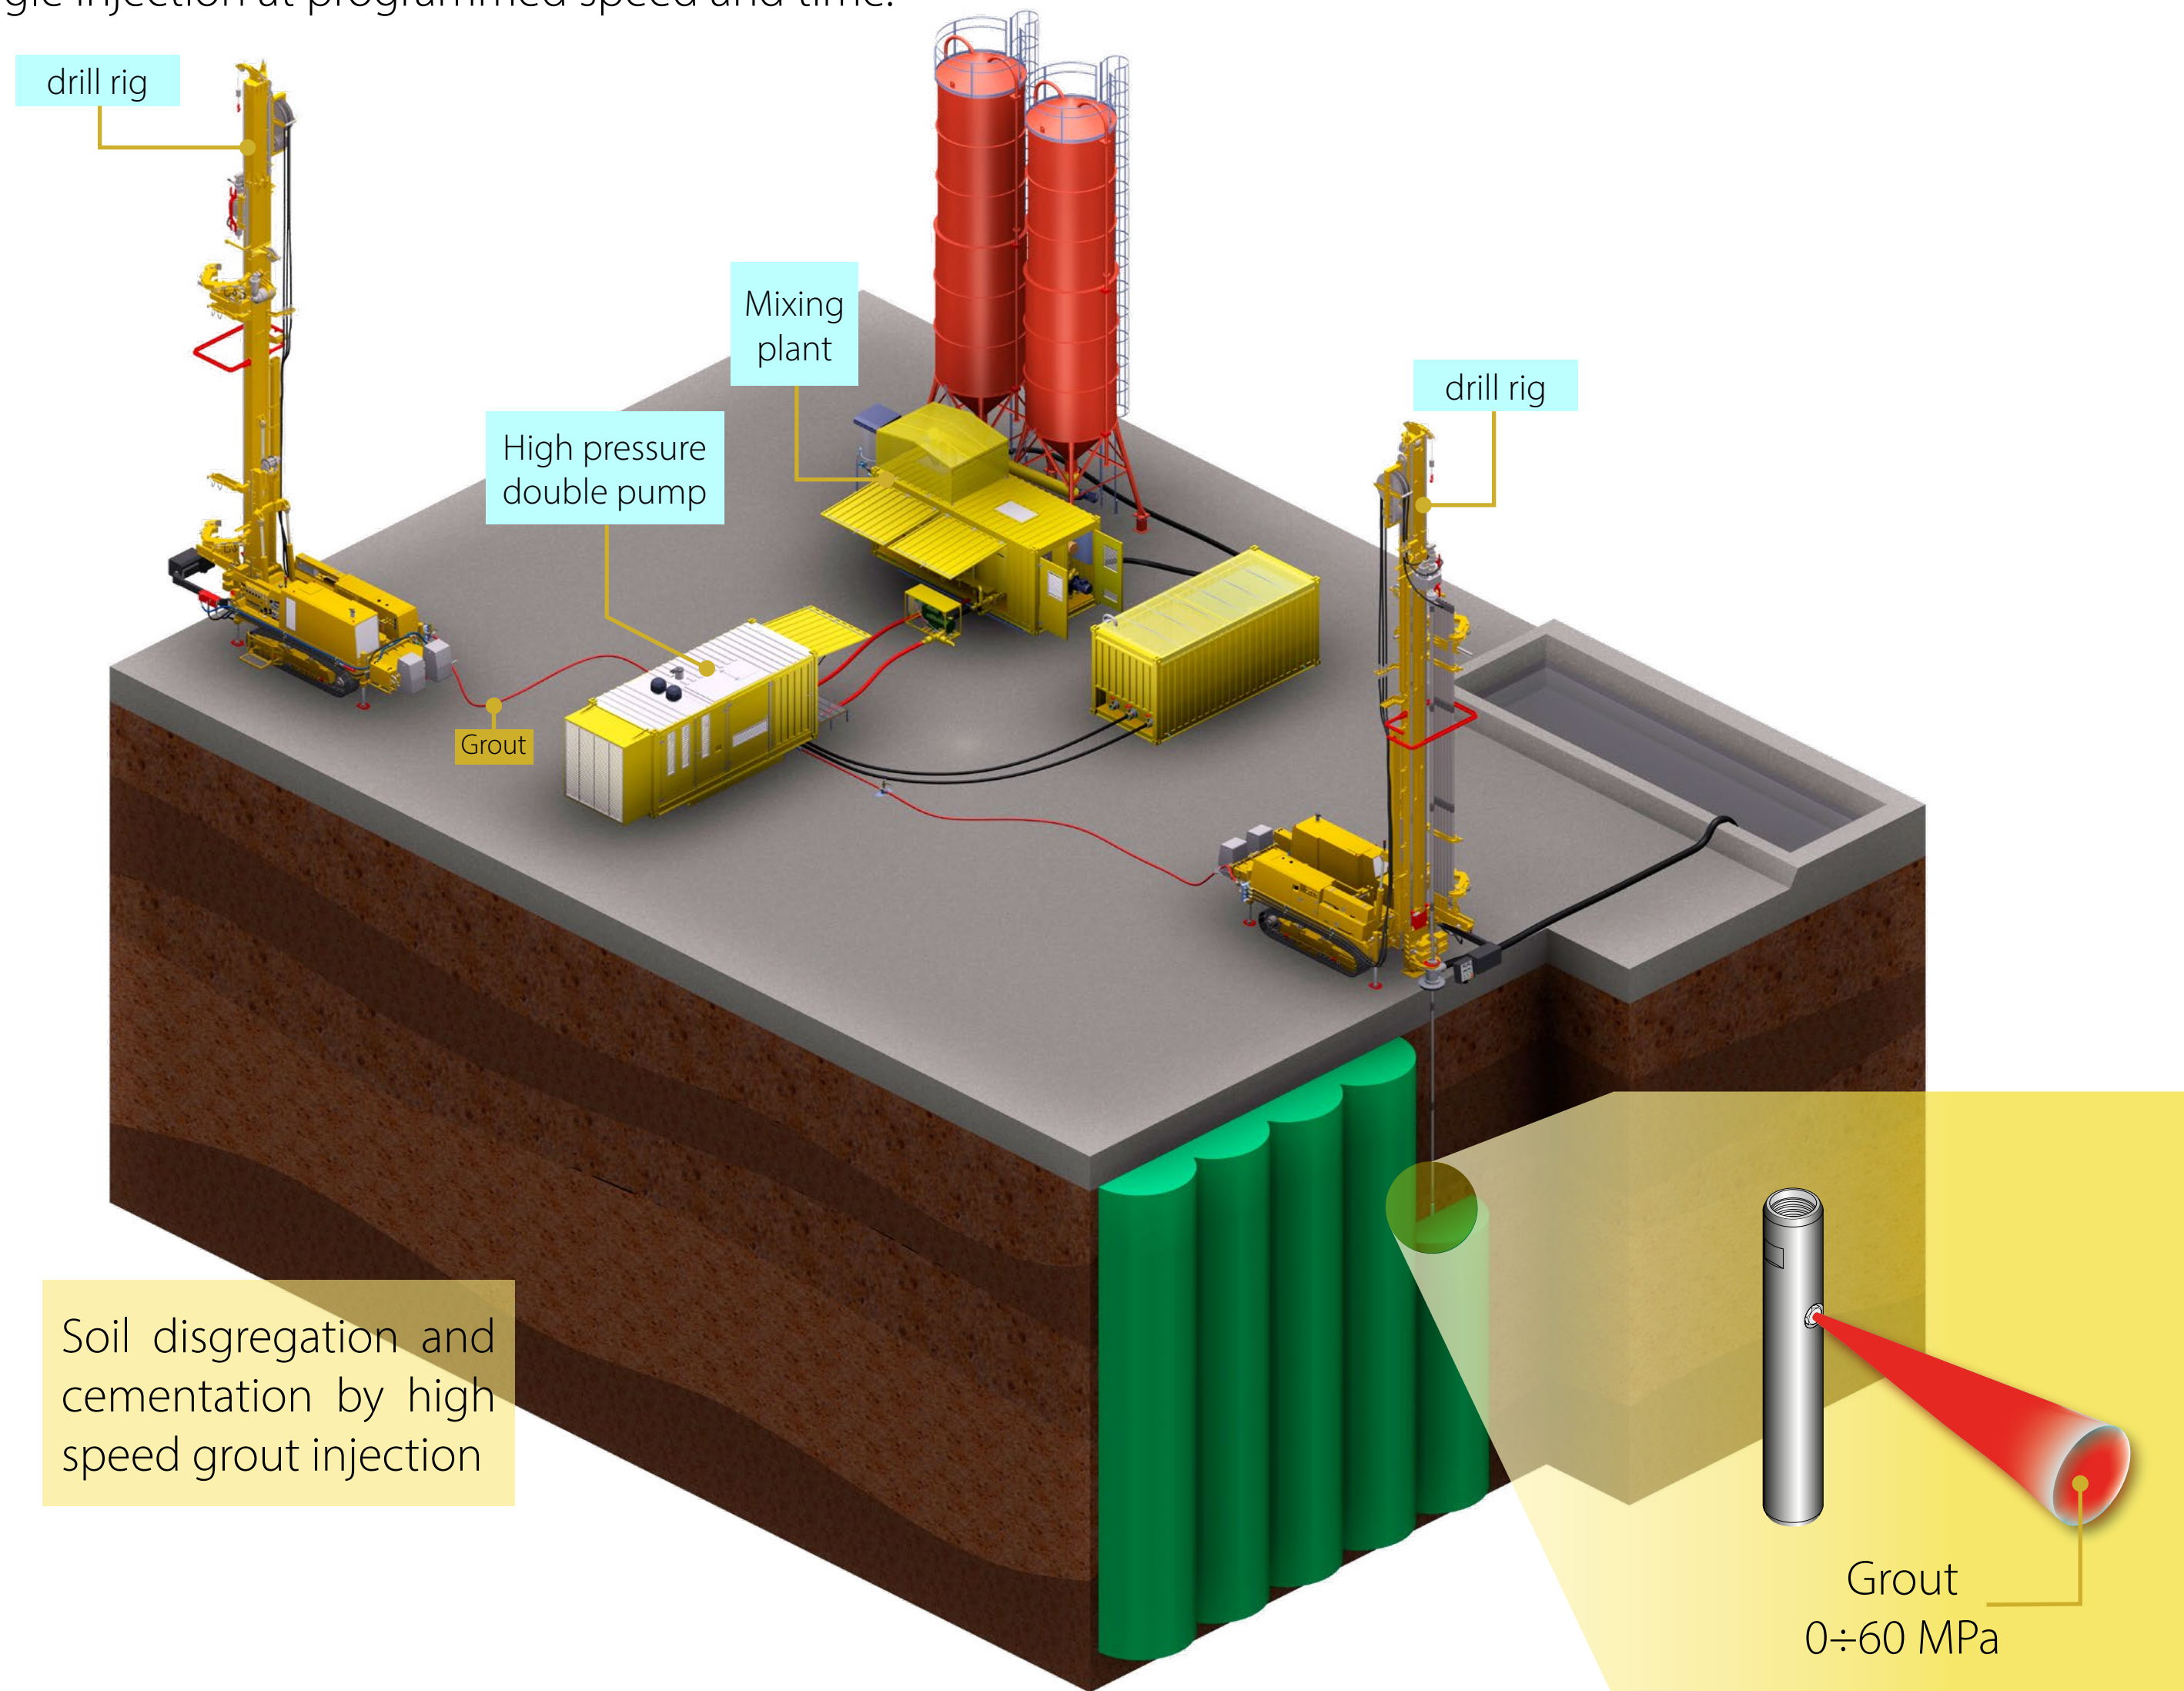

1. Secant columns. | 2. Partial column 120°. | 3. Mono-direction panel.

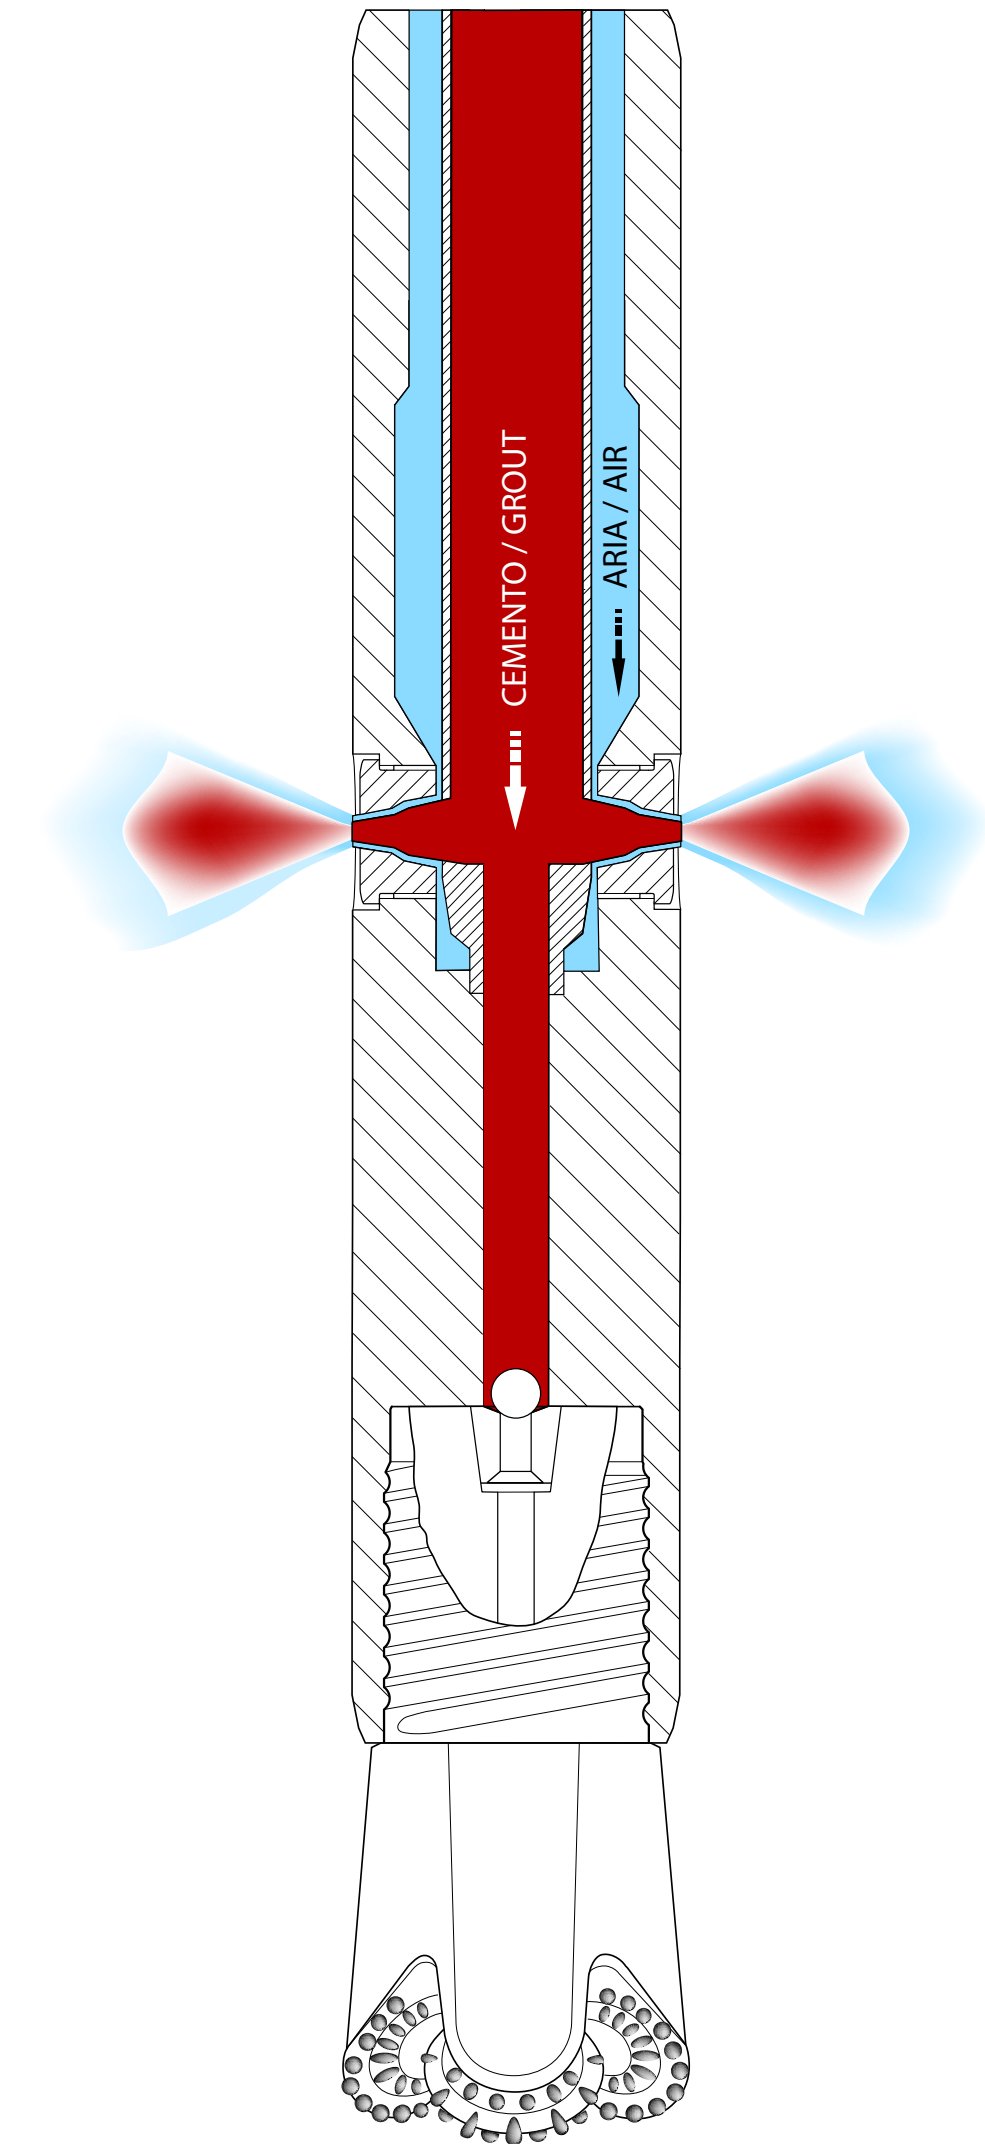

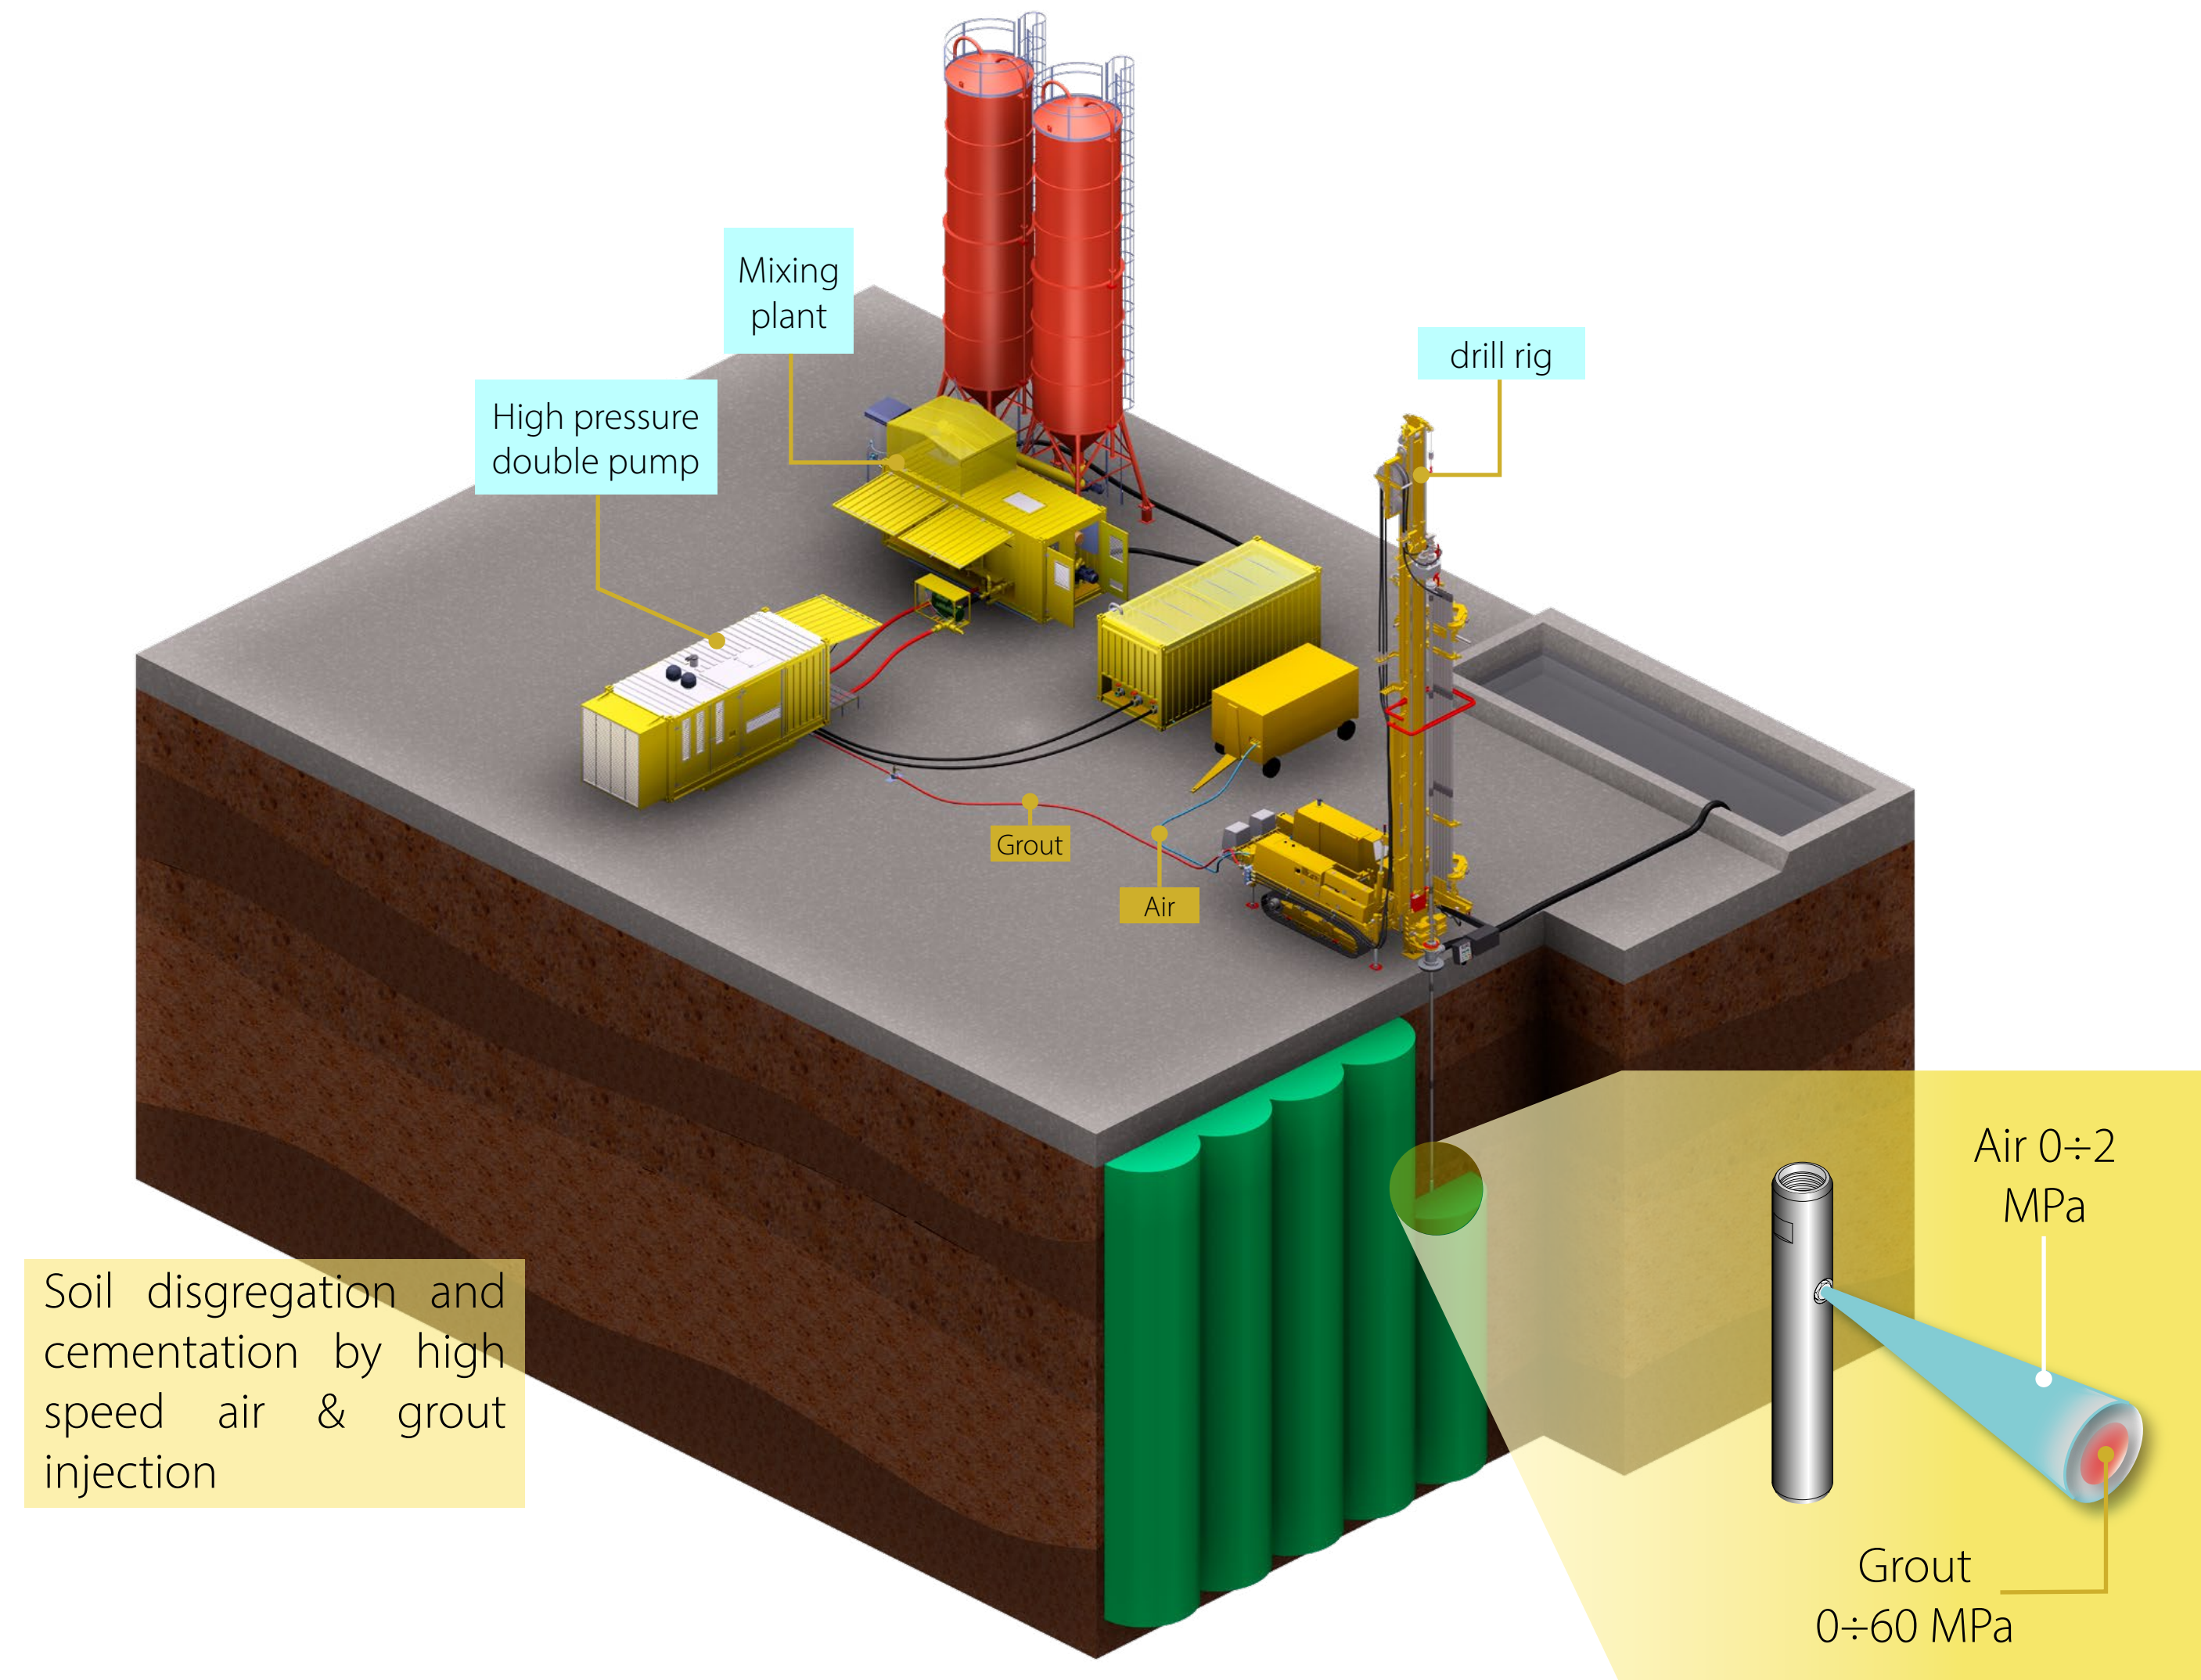

Injection System PS1

single injection at programmed speed and time.

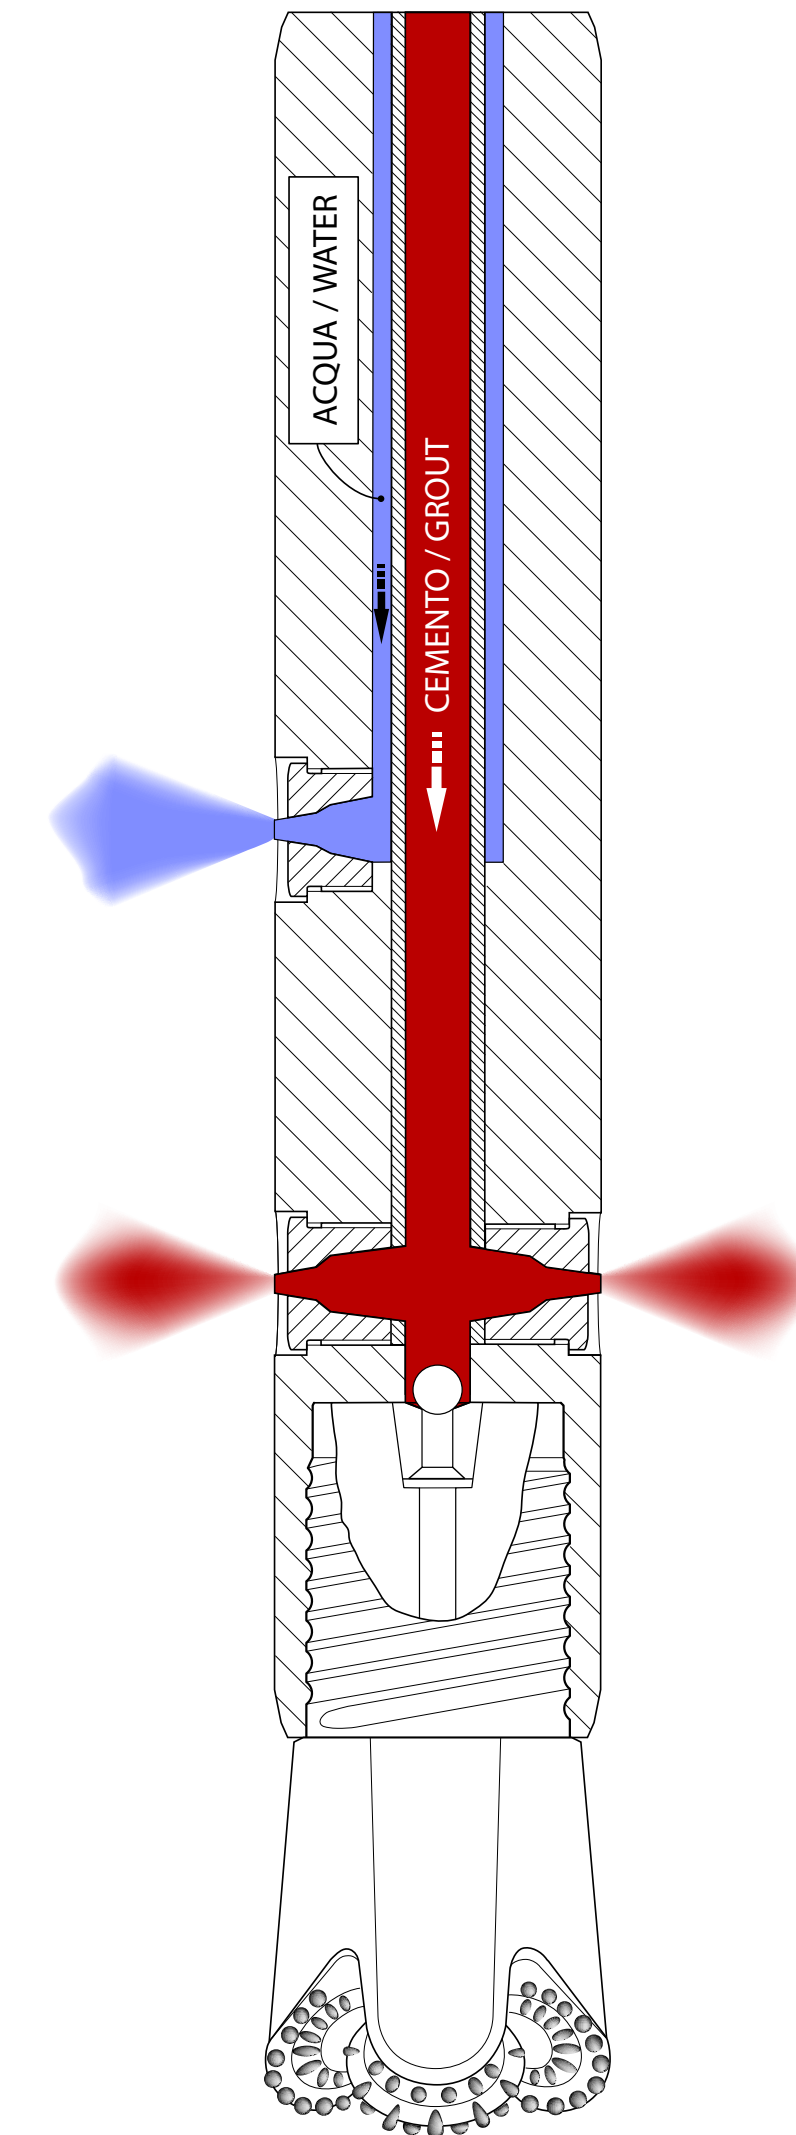

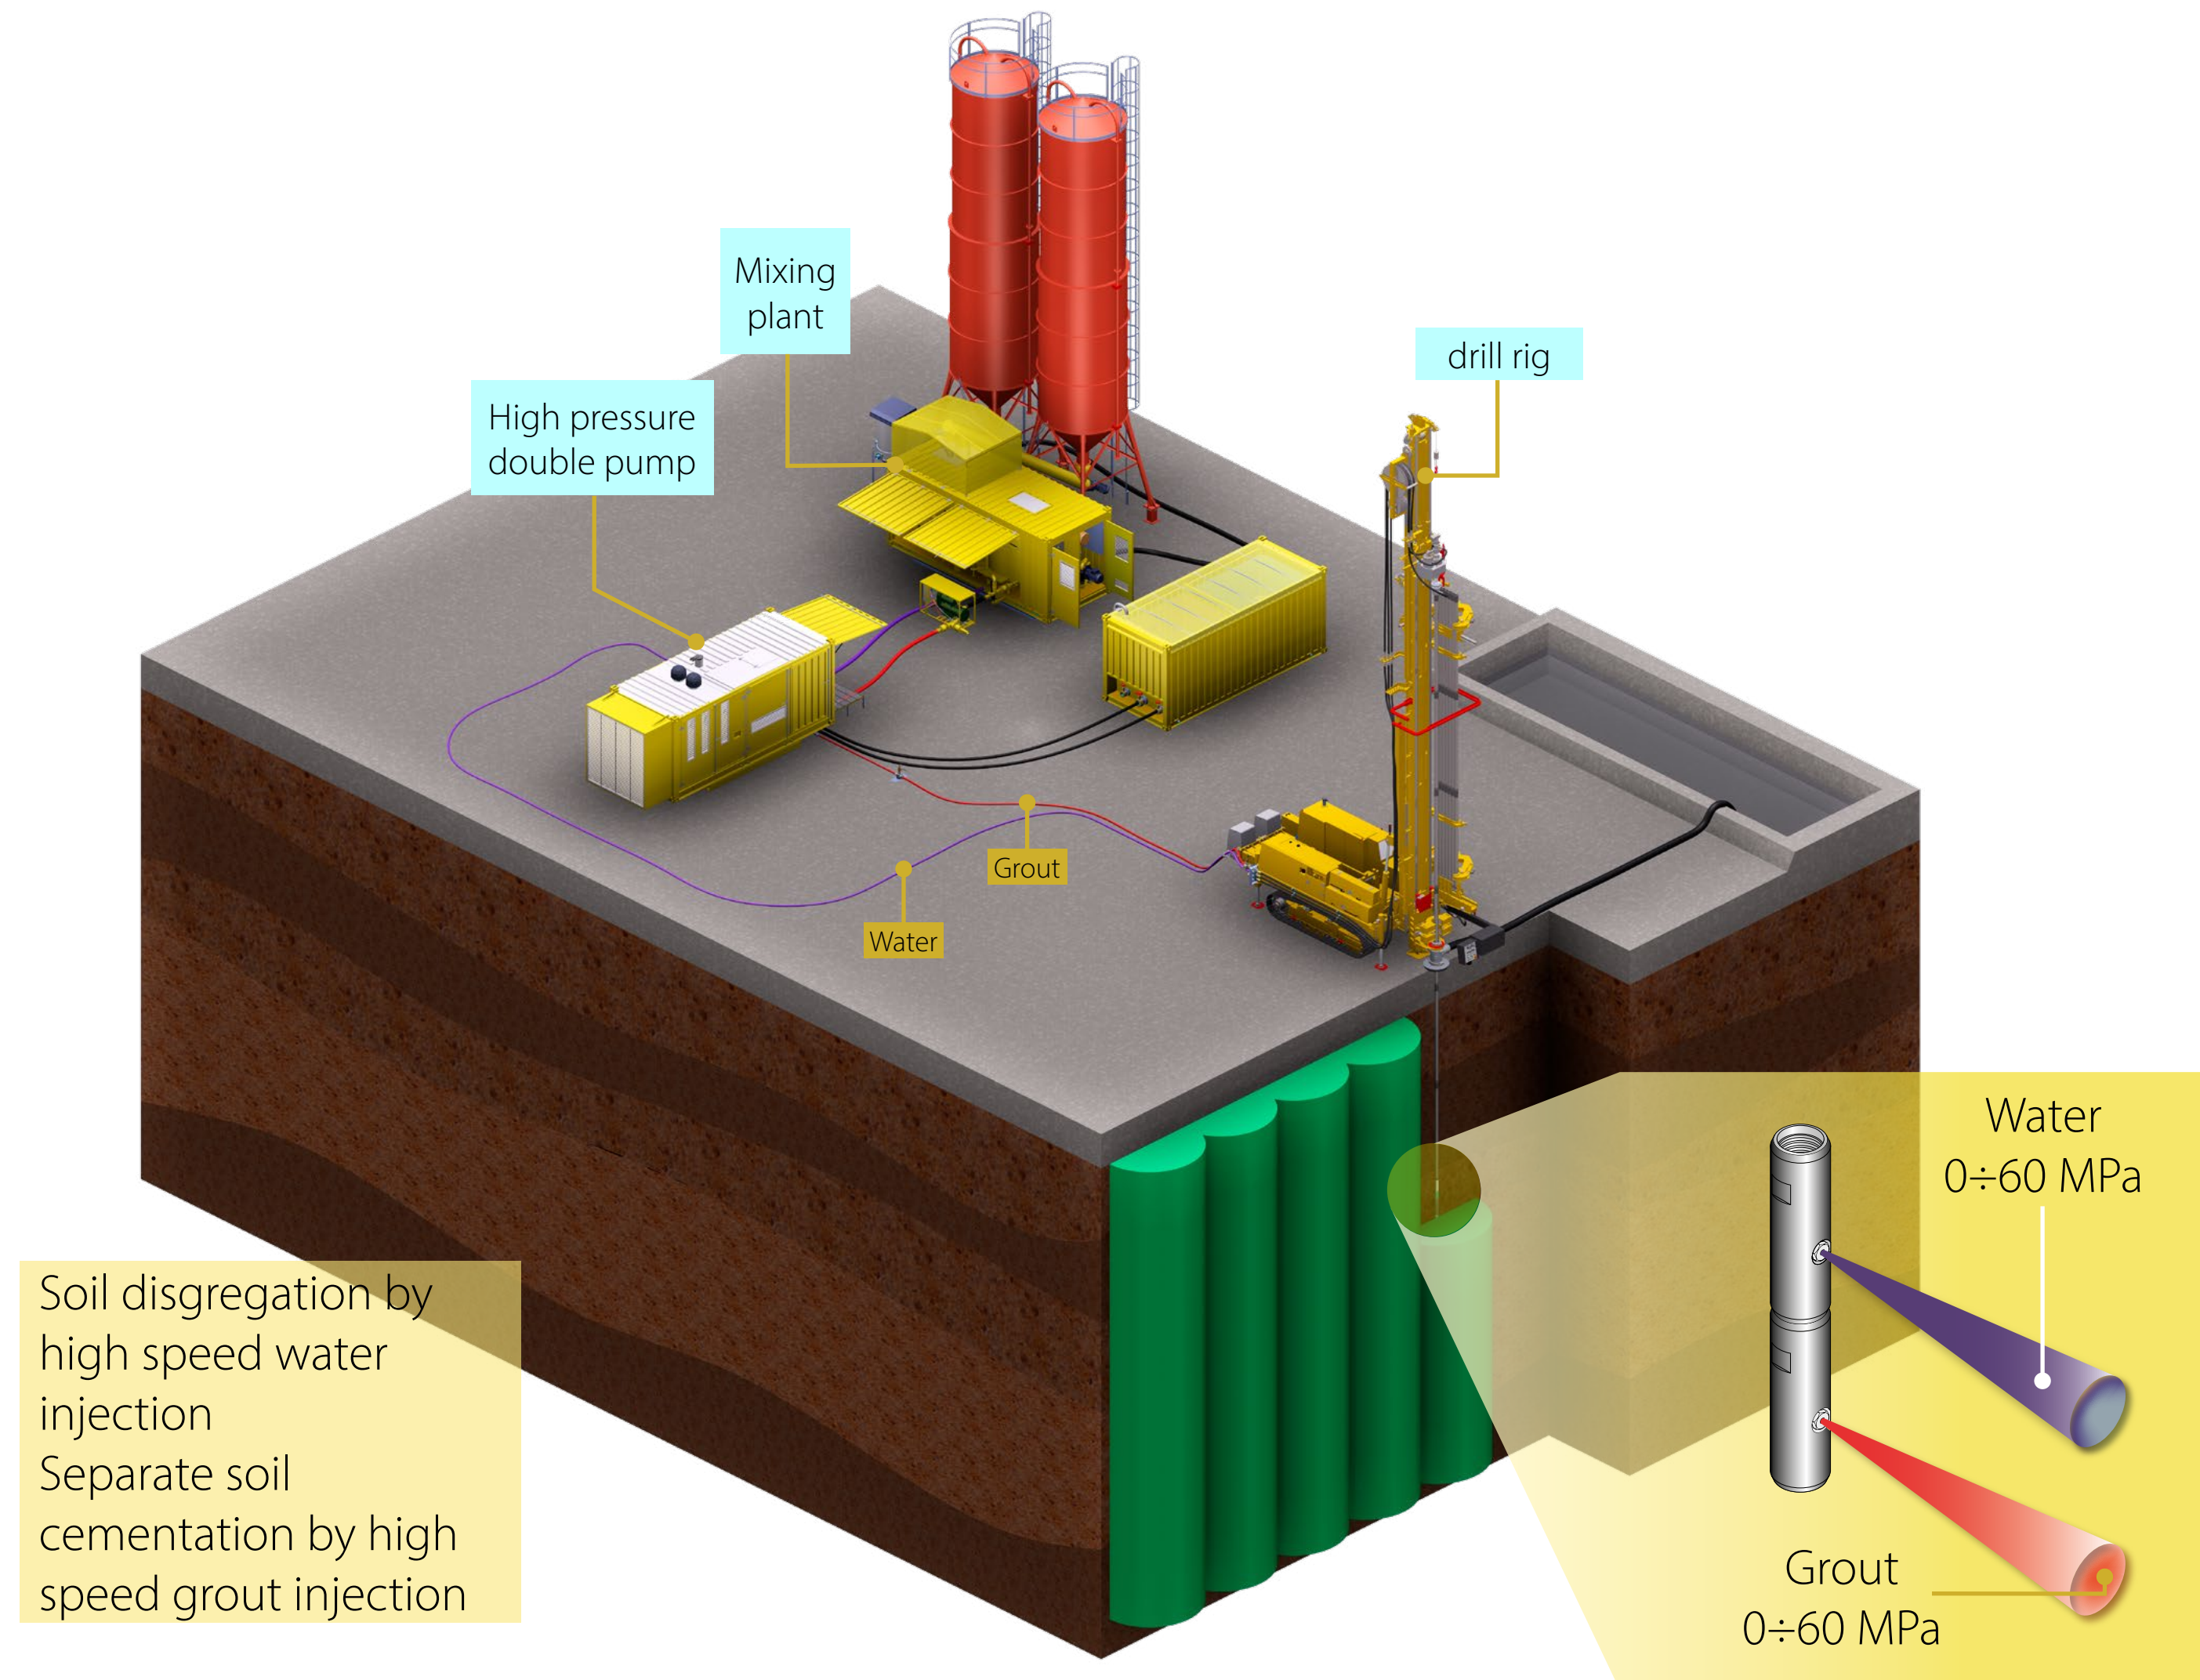

Injection System PS2a

air and grout duoble injection at programmed speed and time.

Injection System PS2w

water and grout duoble injection at programmed speed and time.

Injection System PS3

water, air and grout triple injection at programmed speed and time.
